

NOTICE REGARDING WELLNESS PROGRAM

Windstream offers a voluntary wellness program available to all employees. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others. Through the wellness program, employees can choose to complete a biometric screening, which will include height and weight measurements, waist measurement, blood pressure, and a blood test measuring cholesterol, triglycerides and glucose levels. All employees may participate in the biometric screening free of charge, and employee spouses who are enrolled in a Windstream medical plan may participate in the biometric screening free of charge.

Employees and/or their spouses enrolled in a medical plan are not required to complete a biometric screening. If you choose to do so, data from your biometric screening will be used to provide you with information to help you understand your current health and potential risks, and may also be used to offer you services through the wellness program, such as diabetes management. You also are encouraged to share your results or concerns with your own doctor.

If you should need a reasonable accommodation to participate in the wellness program, contact windstreambenefits@windstream.com.
